Our economically ECD6C & ECS4C Series rotary type heat sealers are designed for medium to higher volume production requirements. These machines may be used for conventional carded blisters, full face blisters and half-clamshell styles as well as applications using Tyvek, foils and other heat sealable lid stock.

These units are available in 12" X 14" and 14" X 18". For larger sealing areas and more stations, please refer to our SDS & ESDS series machines. The standard sealer feature one sealing station with the remaining stations used for loading / unloading of the products.
