### **ES SERIES DESIGNED FOR SMALL TO MEDIUM VOLUME**

Our ES series shuttle type heat sealers are designed for small to medium volume production requirements. This sealer may be used for conventional carded blisters, full face blisters, trapped blisters and half-clamshell styles as well as applications using foils and other heat sealable lid stock materials.

The ES Series are available in two different standard sealing areas of 14 x 18 inches and 18 x 24 inches. These high-quality sealers are ideal for startup companies, back up equipment, cellular production lines or low volume in-house packaging. The ES series machines are available in one or two station shuttle type sealers utilizing quick-change sealing fixtures. For larger seal area models inquire on our 2MS series sealers. Custom sizes available upon request.
