KRF8 SERIES DESIGNED FOR MEDIUM TO HIGH VOLUME AS WELL AS JIT PRODUCTION

The KRF8 Series 4 or 6 station rotary type RF sealing machines are ideal for medium to high volume as well as JIT production. These units can achieve speeds of up to 8 cycles per minute using one to several operators.

These high-quality and versatile RF sealing machines are ideal for OEM's, contract packagers and fulfillment houses. The KFR Series is a semi-automatic machine with automatic sealing while designed to accept packages that have been assembled on-line or off-line then to be loaded and unloaded by hand. Packages may be spot or perimeter sealed as well as tear-sealed (seal and cut) depending on the tooling style purchased.
