RT SERIES DESIGNED FOR LOW TO HIGH VOLUME

The RT Series Roller Die Cutters are versatile enough to handle a full range of low to high production requirements. These machines will trim a wide range of materials such as skin packaged products, thermoformed products, cork, rubber and any other application where a steel rule die can be utilized.

Standard die cutting width are 22", 28", 34", 40", 54", and 70". RT 22 model is the only single roller driven machine. Also available are heavier duty units with 10.5" diameter roller. All other models are double roller driven machines. Larger and custom sizes available on request.
