CT-A & CTR-A SERIES DESIGNED FOR MEDIUM TO HIGH VOLUME

The CT-A /CTR-A Series skin packaging machines are designed for medium to high volume applications. The CT-A series incorporates a stationary heating system with instant on/off heaters, which quickly heat up during cycles and turn off for loading / unloading. The CTR-A series utilizes a retractable more powerful radiant heating system for more challenging projects.

Both the CT-A and CTR-A skin packaging machines are PLC controlled through an HMI screen for precision repeatability. These machines are sturdy welded steel construction with removable panels for servicing. Both series are available in standard sizes and custom sizes with additional options including in metric measurements.
